## LETTER TO TOURISTS

Dearly beloved,  
the Church of Teramo-Atri greets you with great joy and cordiality and joins in the tourist operators' feelings of gratitude.

Thank you for choosing our land as the place for your time of rest!

All the Church communities present in the tourist areas welcome you and wish to share with you moments of prayer and fraternity.

Rest is fruitful when it fosters the growth of our personalities, which are always called to new challenges ahead of us.

I would like to address a special greeting to young people.

Dear young people,  
do not waste the time of rest!

Rest in order to start again!

But restarting will be possible if the desire not to escape grows in each of us.

Escapism is the most attractive but also the most dangerous proposition. I am confident that you will plan your days wisely and prudently.

I invite everyone to take part in the initiatives of our church communities both at the seaside and in the mountains.
